Provide a list of supporting documents to be included with this assessment plan (e.g., sample test, guidelines).

Rubric

Assignment

Scanned copies of completed assignments

Spreadsheet analysis of scores

Phase 2: Results Assessment and Planned Action

Results:

What did we learn about student learning?

Suggested Action:

Recommended action based on evaluation performance

This section can be used to suggest changes to the program, the assessment process, rubrics, or even the learning outcome itself.

Phase 3: Closing the Loop

In the year that the assessment is made, this is good place to describe how the suggested actions might be evaluated in a future assessment cycle. When that cycle is complete, the results can be added to this document to finalize the report.
