

# Connection Zone<sup>®</sup> Screen

agile | engaging | visionary

Furnishing Knowledge<sup>®</sup>

## Connection Zone® Screen

Connection Zone Screens move where you move. Spark creativity and facilitate collaboration with writable surfaces that create and define work zones. Screens can be used individually or ganged together for division of space and to provide a larger canvas for idea generation.

Screen surface options range from solid white to translucent with graduated opacity, which creates a lightness of scale and allows the permeation of light in and around the surface. Easel hooks support easy use of writing pads, while accessory trays give quick access to collaborative tools and dry erase items.

Choose from a variety of standard surface options or KI will work with you to create a custom surface print.

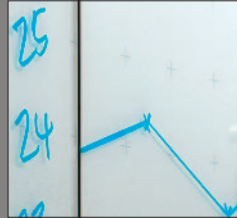

Store writing tools on the accessory tray for easy access.

Writing pads and presentation materials can be hung from standard easel hooks.

Gang multiple screens to define space.

Grid patterns provide discreet guidelines when writing.
