Synching Faculty/Staff DonsApps Google Calendar in IOS 10 for iPhone

Getting Started
To sync with your device, follow these steps:
Open the Settings application on your device's home screen.
1. Open Calendar.
2. Select Account
3. Select Add Account...
4. Select Other.
5. Select Add CalDAV Account.

To sync with your device, follow these steps:
Open the Settings application on your device's home screen.
1. Open Calendar.
6. Enter your account information:
   In the **Server** field, enter www.google.com
   In the **Username** field, enter your full myUSF email address.
   In the **Password** field, enter your myUSF password.
   In the **Description** field, enter the name you'd like to appear on the account.

7. Select **Next** at the top of your screen.
8. After you've completed setup, open the Calendar application and syncing will automatically begin.

*By default only your primary calendar may be the only calendar synced to your device.*
*You can sync additional created and shared calendars by visiting one of the following pages from any web browser ([via the desktop, not on the mobile device](#)):*

Follow these steps to add any created or shared calendars:
1. Login to myUSF.
2. Click on the link for **Calendar** From the **FavApps** menu to access your DonsApps account.
3. Next open up a new tab or window in your web browser and enter the following address: [https://www.google.com/calendar/hosted/usfca.edu/iphoneselect](https://www.google.com/calendar/hosted/usfca.edu/iphoneselect) to access the calendar sync page.
4. Now you should see a list of calendars both created by you and shared to you. Check the boxes for the calendars you would like to sync to the iPhone.

5. Click Save to finish the process.

The selected calendars will display on your iPhone at the time of the next sync.
