

USE OFFICER LIAISON PROGRAM

OVERVIEW

This program pairs Campus Safety Officers and personnel with various groups across campus. These groups can range from departments or units, student clubs, staff/faculty groups, or community organizations. The liaison program exists to provide a forum for a deeper level of engagement between Campus Safety personnel and campus groups; allowing for both parties to be involved in each other's events & campaigns. This program is both flexible and informal. All meetings between the group and liaison will take place at the discretion of the group and officer.

WHY IT MATTERS

The Department Public Safety seeks internal and external partnerships to promote and maintain a safe, secure environment conducive to learning, living and working at the University of San Francisco. The Department does not exist to police the community but rather to serve the community. We are all Dons and the safety and security issues of today are complex and dynamic. It takes all of us working together to protect the community that we all love. We hope that you will partner with us in this effort.

WHAT IT TAKES

Perhaps some of the greatest features of this program are its scalability and flexibility. Your partnership with the Department of Public Safety can take a variety of directions. You may choose to only meet with your liaison once a month to check-in or you may elect to co-sponsor events with us, work on crime prevention campaigns or address specific issues that are concerning to you.

GET STARTED

Campus groups who wish to participate in this program or have questions should contact Director Dan Lawson via email or phone at lawson@usfca.edu (415.422.2396).

ABOUT CAMPUS SAFETY

Campus Safety Officers are highly trained individuals who work to protect the life safety and property of students, staff, faculty and community members on campus. Each officer trainee has received California State Policing Certification. Officers patrol the campus and respond to calls 24 hours a day, 7 days a week with the mission to advance the quality of life on campus using community-focused safety and access solutions.
