

What is Workday?

Dear Colleagues,

As President Fitzgerald announced at the April Town Hall, USF is adopting a new cloud-based human resources and payroll system called Workday that will greatly enhance how we conduct our internal business processes and operations.

We are extremely excited about the enhancements associated with this system which will significantly improve the level of service to employees across the university. As we begin our next phase of implementation we would like to share more with you about Workday. Please click on the link below to view our “What is Workday?” video which provides a quick overview of the program.

(Closed captioning is available within the settings for the video)

More information is also available on our new USFWorks powered by Workday web pages available on myUSF where you can browse Workday FAQs, meet the USFWorks project team and Workday Champions and, check our implementation progress. Subsequent email updates will be forthcoming as the project advances throughout the year. Feel free to share your ideas or submit questions to workday-questions@usfca.edu at any time during this process.

Thank you for joining us in this innovative project that will benefit our entire USF community well into the foreseeable future.

Sincerely,

Martha Peugh-Wade

Associate Vice President, Human Resources

Ivy T Efendioglu

Director of Financial Applications, ABS

David Kirmse

Associate Vice President of Information Technology & Director of Educational Technology Services
