Biology – The Science of Life
Minor Requirements

To minor in Biology students must complete the following courses (33-36 units):

BIOL105—General Biology I
BIOL106—General Biology II
BIOL212—Cell Physiology (pre-requisite: minimum C- in General Biology BIOL105 and BIOL106)
BIOL310—Genetics (prequisite: minimum C in Cell Physiology BIOL212, plus pre- or corequisite: Organic Chemistry CHEM230 or CHEM236)
BIOLxxx—One upper-division Biology course (300- or 400-level) with appropriate pre- and co-requisites (Biochemistry not accepted)

CHEM111/112—General Chemistry I/Lab
CHEM113/114—General Chemistry II/Lab
CHEM232—Organic Chemistry Laboratory I

Please note:

• USF policy requires that all courses for the Core and specific program requirements be completed at USF (see Department Chair for permission to transfer units completed somewhere else BEFORE you enrolled at USF).
• Your last 30 units must be completed at USF.
• Once you have matriculated at USF, Genetics must be taken here to compete the Biology minor (there are no exceptions to this policy).
• A Biology minor cannot be awarded in conjunction with a Natural Science minor.
