**Loan Interest Rate & Fees**

Your **fixed interest rate** will be

**5%**

**Your Interest Rate during the life of the loan:**

**Your rate is fixed.** This means that your rate will not vary from the rate on this form. Interest begins to accrue when you enter repayment, typically 9 months after you cease to be enrolled at least half-time. Interest does not accrue during deferment or grace periods.

**Loan Fees**

**Late Payment Charge:** 6% of the amount of the past due payment after 60 days

**Returned Check Charge:** Up to \$25

**Loan Cost Examples**

The total amount you will pay for this loan will vary depending upon when you start to repay it. This example provides estimates based upon two (2) different repayment options available to you while enrolled in school. The *Amount Provided* figure is used as an example and is not to meant reflect your actual loan amount. An average annual USF Nursing Loan award is \$1,800.

Repayment Option  (while enrolled in school)	Amount Provided  (amount provided directly to you or your school)	Interest Rate  (fixed rate)	Loan Term  (how long you have to pay off the loan)	Total Paid over 10 Years
<b>1. DEFER PAYMENTS</b>  Make no payments while enrolled in school. Interest will not accrue during this time.	\$10,000	5%	10 years  Starting <u>after</u> the deferment and grace periods	\$12,728
<b>2. MAKE FULL PAYMENTS</b>  Make minimum payments while enrolled in school. Payments made while enrolled will credited entirely to the principal balance.	\$10,000	5%	14 years, 9 months  Starting from the date of your first payment	\$11,950

**About these examples**

The first repayment example assumes that you remain in school for 4 years and have a 9 month grace period before beginning repayment. It is based on the **fixed interest rate** and assumes all payments are made on-time. Repayment will last for 10 years beginning from the date of your first payment. The second example is based on the same assumptions, with the additional assumption that you make minimum monthly payments of \$50 while enrolled in school. As no interest is accruing while you are enrolled, these payments would go entirely to the principal balance of your loan.
