### Brief description of student work products used to assess PLOs: \*

INTD 386: DDTP Fieldwork II

Teaching A Lesson - Students delivered a lesson, planned by them, to elementary or secondary students in a local classroom during their fieldwork hours. Students were observed and given feedback by UTEC Fieldwork Supervisor.

---

### What tools did you use to evaluate the student work product(s) (e.g. rubric, test score)? \*

Rubric

---

Please upload any tools used to evaluate student work product(s) here in PDF format only. Please use descriptive file names (e.g. "SociologyAssessmentRubric.PDF").

### Who evaluated the student work product? Check all that apply. \*

- FT faculty members who were not instructor(s) of the course(s)
- FT faculty members who were instructor(s) of the course(s)
- PT faculty members who were not instructor(s) of the course(s)
- PT faculty members who were instructor(s) of the course(s)
- Other: Program Coordinator

Describe the calibration procedure you employed, if any (i.e., how did you assure that faculty raters were consistent with each other in how they rated the student work products):

---

What indirect methods did you employ, if any?

- Student Survey
- Student Interview
- Focus Groups
- Reflection Sessions
- Reflection Essays
- Faculty Survey
- Exit (end of program) Survey
- Exit (end of program) Interview
- Alumni Survey
- Employer Survey
- Diaries or Journals
- Data from Institutional Surveys
- Curriculum/Syllabus Analysis
- Other: .....

Please indicate and briefly describe what indirect methods you used (and/or attach the survey/script/interview below).

---

Attach survey/script/interview here as needed

## Results

What were the direct data results? \*

8 students observed/assessed

7 students (88%) scored a 1 on all three Criterion

1 student (12%) scored a 2 on Criterion #2

---

What were the indirect data results? (If applicable)

---

## How do you interpret these results? What do they mean? \*

DDTP Students in their second Fieldwork experience are well-prepared to enter classrooms and deliver well-planned, grade appropriate, motivating and engaging lessons aligned with State standards. This fits well with the program curriculum map, which seeks to have students at an intermediate level by the time that they take this course.

We also see these results as an indication that the Course Instructor and Field Supervisor could increase their attention to Criterion 2 in the rubric ("Developmentally appropriate teaching practices").

---

## Closing the Loop

"Assessment is most likely to lead to improvement when it is part of a larger set of conditions that promote change: Assessment alone changes little. Its greatest contribution comes on campuses where the quality of teaching and learning is visibly valued and worked at. On such campuses, the push to improve educational performance is a visible and primary goal of leadership; improving the quality of undergraduate education is central to the institution's planning, budgeting, and personnel decisions. On such campuses, information about learning outcomes is seen as an integral part of decision making, and avidly sought."

--9 Principles of Good Practice for Assessing Student Learning: American Association for Higher Education

Purpose: In the current field of higher education today, Assessment of student learning is seen as a critical tool to assist in the mission of student centered education. It is a way for faculty and the other university constituents involved in learning to use data driven results to bring about needed curricular or programmatic changes to improve student outcomes.

In the previous section, you have analyzed the data to get some critical insights into student learning. This section is for our way forward, and touches upon a few core areas:

## What might you do as a result of these assessment results? What curricular or programmatic changes might you implement? \*

- Revision of PLOs
- Changes in pedagogical practices
- Revision of program course sequence
- Revision of course(s) content
- Curriculum Changes (e.g. addition and/or deletion of courses)
- Modified program policies or procedures
- Designed measurement tools more aptly suited for the task
- Improved within and across school/college collaboration
- Improved within and across school/college communication
- Revised student learning outcomes in one or more courses
- Modified rubric
- Developed new rubric
- Developed more stringent measures (key assessments)
- Modified course offering schedules
- Changes to faculty and/or staff
- Changes in program modality of delivery
- Other: .....

## Description of the Proposed Changes (as checked above): \*

This is the first time that we have assessed Program Learning Outcomes at a yearly level, so we plan to share these results with the Fieldwork Supervisor and Course Instructor. This will happen during the intersession as a process of proactive planning so that we can foreground PLOs and align the course and field-supervisor response more fully with these.

Amendments to your assessment plan: If, in course of conducting current assessment, you felt a need to amend the assessment plan itself for future assessments, please discuss it here in a few sentences: \*
