NOTES:

- 2016-2017 Yearly Assessment Reports for all CAS Majors, Minors, Graduate Programs, and Non-Degree Seeking Programs are due by 10/28/17; early submissions are welcome.
- Reports, including Curriculum Map(s) should be submitted to the Program Assistant; he/she will upload documents to Gnosis.
 - Undergraduate programs (majors and minors) must include two curricular maps – one showing how courses map onto Program Learning Outcomes (PLOs) and one showing how PLOs map onto Institutional Learning Outcomes (ILOs).
 - Graduate programs must include one curricular map showing how courses map onto PLOs.
 - Non-degree seeking programs must include one curricular map showing how PLOs map onto ILOs.
- This form <u>cannot be saved</u> once it is in-progress. If you close out of the form before submission, responses will be **discarded**. Please ensure you are ready to fill out the full form once you begin, and/or keep a backup copy of your responses.
- If you encounter any issues while utilizing this form, please contact Corie Schwabenland Garcia, Academic Data and Assessment Analyst, at x4285 or ceschwabenland@usfca.edu

The Minor in Gerontology provides undergraduate students with an interdisciplinary understanding of the many aspects of the aging process and gives them the knowledge to pursue a career in the growing field of gerontology. Students are provided opportunities to experience the connection between learning about aging and working with older adults in the community. The Gerontology Minor promotes social justice for people of all ages and inspiration to improve the lives of older adults.

Program Learning Outcomes (PLOs)

Please type and/or copy-and-paste directly into the space below:

*

1. Students will be able to describe biological, social, or psychological aspects of the aging process.

2. Students will be able to articulate the importance of engagement in social justice for people of all ages.

Please upload your Curriculum Maps below. All file types (Excel, PDF, etc.) are allowed.

Which of your Program Learning Outcomes did you assess during 2016-2017? *

PLO2: Social Justice: Students will be able to articulate the importance of engagement in social justice for people of all ages.

What student work products did you use to assess your PLO(s)? Pick one or more direct methods from the list below and briefly describe below what specific work product(s) you used. *			
	Published (Standardized) Test (e.g., Major Field Test)		
	Class Tests & Quizzes with Embedded Questions		
	Class Presentations		
	Off-Campus Presentations (NGOs, clients, agencies, etc.)		
Research Projects Reports			
	Case Studies		
Term Papers			
	Portfolio		
	Artistic Performances, Recitals & Products		
	Capstone Projects		
	Poster Presentations		
	Comprehensive Exams		
	Thesis, Dissertation		
	Pass Rates on Certification or Licensure Exams		
	Group Projects		
	In-/Out-of Class Presentations		
	Competency Interviews (e.g., oral exams)		
	Simulations		
	Juried Presentations		

Brief description of student work products used to assess PLOs: *

We used summative papers from each course: Term papers in Psyc 339 and Response papers in Kin 335.

What tools did you use to evaluate the student work product(s) (e.g. rubric, test score)? *

rubric

Please upload any tools used to evaluate student work product(s) here in PDF format only. Please use descriptive file names (e.g. "SociologyAssessmentRubric.PDF").

Who evaluated the student work product? Check all that apply. *

- FT faculty members who were not instructor(s) of the course(s)
- FT faculty members who were instructor(s) of the course(s)
- PT faculty members who were not instructor(s) of the course(s)
- PT faculty members who were instructor(s) of the course(s)

Other:	

Describe the calibration procedure you employed, if any (i.e., how did you assure that faculty raters were consistent with each other in how they rated the student work products):

Using the random number generator in excel, we randomly selected 12 papers from each class and developed a rubric to assess the PLO. Two committee members (both full-time faculty members, one who taught one of the courses, one who taught neither of the courses) both rated 2 papers from each class to calibrate ratings and to examine effectiveness of the rubric. These two committee members met to adjust the rubric and to confirm ratings. The rest of the papers were randomly assigned to the two committee members and rated according to the rubric.

What indirect methods did you employ, if any?

- Student Survey
- Student Interview
- Focus Groups
- Reflection Sessions
- Reflection Essays
- Faculty Survey
- Exit (end of program) Survey
- Exit (end of program) Interview
- Alumni Survey
- Employer Survey
- Diaries or Journals
- Data from Institutional Surveys
- Curriculum/Syllabus Analysis
- Other:

Please indicate and briefly describe what indirect methods you used (and/or attach the survey/script/interview below).

Attach survey/script/interview here as needed

What were the direct data results? *

Overall average rating was 2.375 (SD = .70). Average rating of social justice in each class was 2.16 (SD = .69) for class 1 and 2.58 (SD = .64) for class 2.

What were the indirect data results? (If applicable)

How do you interpret these results? What do they mean? *

Results were presented to the Interdisciplinary Committee on Aging and we determined that social justice PLO is being satisfactorily met in these two courses. Results were also disseminated to the faculty who teach these courses.

Closing the Loop

"Assessment is most likely to lead to improvement when it is part of a larger set of conditions that promote change: Assessment alone changes little. Its greatest contribution comes on campuses where the quality of teaching and learning is visibly valued and worked at. On such campuses, the push to improve educational performance is a visible and primary goal of leadership; improving the quality of undergraduate education is central to the institution's planning, budgeting, and personnel decisions. On such campuses, information about learning outcomes is seen as an integral part of decision making, and avidly sought."

--9 Principles of Good Practice for Assessing Student Learning: American Association for Higher Education

Purpose: In the current field of higher education today, Assessment of student learning is seen as a critical tool to assist in the mission of student centered education. It is a way for faculty and the other university constituents involved in learning to use data driven results to bring about needed curricular or programmatic changes to improve student outcomes.

In the previous section, you have analyzed the data to get some critical insights into student learning. This section is for our way forward, and touches upon a few core areas:

What might you do as a result of these assessment results? What curricular or programmatic changes might you implement? *

- Revision of PLOs
- Changes in pedagogical practices
- Revision of program course sequence
- Revision of course(s) content
- Curriculum Changes (e.g. addition and/or deletion of courses)
- Modified program policies or procedures
- Designed measurement tools more aptly suited for the task
- Improved within and across school/college collaboration
- Improved within and across school/college communication
- Revised student learning outcomes in one or more courses
- Modified rubric
- Developed new rubric
- Developed more stringent measures (key assessments)
- Modified course offering schedules
- Changes to faculty and/or staff
- Changes in program modality of delivery
- Other:

Description of the Proposed Changes (as checked above): *

We have already communicated these results with the faculty member who teaches one of the courses and it has opened communication regarding the relationship between the minor and this course.

Amendments to your assessment plan: If, in course of conducting current assessment, you felt a need to amend the assessment plan itself for future assessments, please discuss it here in a few sentences: *

We are starting from scratch, so with each assessment we adapt. This year we had to revise our PLOs and then create rubrics for assessment and then adjust the rubrics.
