- Make sure the doctor you choose has a contract with the medical group you select.
- Make sure the medical group you elect is part of the correct HMO network.
- If you are trying to coordinate to have the opportunity to utilize a specific hospital, make sure that both the doctor and the medical group are contracts with the hospital. However, it is up to the medical group as to which hospitals they utilize regardless of contractions.
- For members to get to use the specific hospital for non-emergencies certain requirements must be met:
  - The hospital must be in Anthem’s network of contracted hospitals
  - The admitting doctor must have admitting privileges as the hospital.
  - The medical group must approve the hospital admission. The medical group may send the member to a different facility.
