

MULTI-YEAR COMPARISON REPORT - 2017 - 2019 QUANTITATIVE REASONING QUIZ University of San Francisco

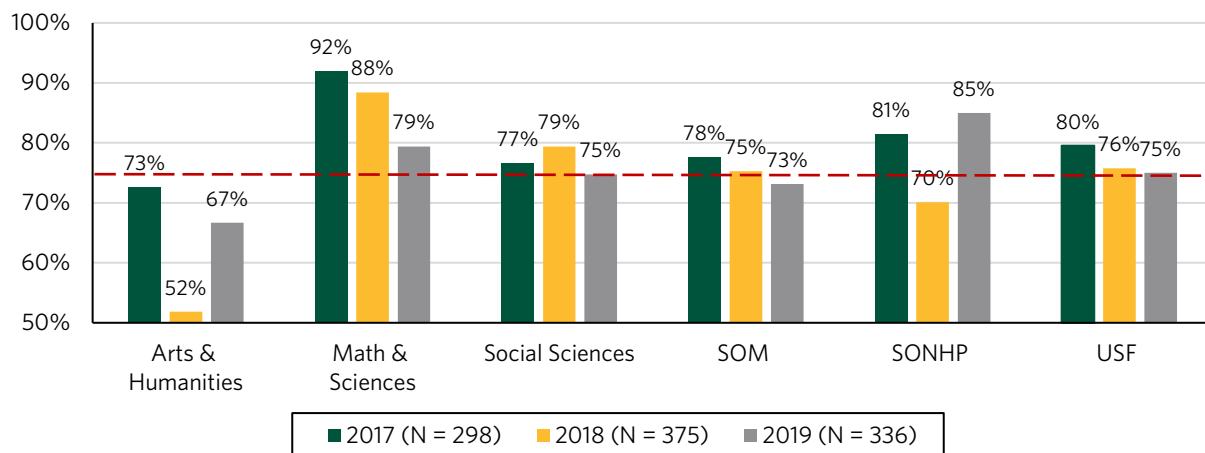

Performance over Time

Student performance has been consistent across the past three years the quantitative reasoning quiz has been administered. In 2017, the institutional average was **85%** and in both 2018 and 2019, it was **84%**. From 2017 to 2019, Math & Sciences students have scored the highest (from **87%** to **89%**) and Arts & Humanities students have scored the lowest (from **77%** to **81%**).

Meeting and Achieving Standards

Seventy five percent of graduating seniors were expected to score an 80% or higher. In general, graduating seniors who participated in the quiz have met this standard. However, Arts & Humanities students have not met standards in the three years the quiz has been administered, School of Nursing & Health Professions students did not meet standards in 2018, and School of Management students did not meet standards in 2019.

Response Rate

The target response rate for each year is **20%**. In 2017, the overall response rate was **22%**, in 2018, it was **21%**, and in 2019, it was **18%**.
