Family size includes: The student (and their spouse), other people if they now live with the student and the student will provide more than half of their support between July 1, 2024, and June 30, 2025. This includes dependent children who meet these criteria, even if they live apart because of college enrollment.

Based on answers to previous questions, we've made some assumptions about your family. The student (and student's spouse, if married) are always included in the family size. The box below shows your family sized based on our assumptions and the number of children or other dependents you report.

The student's family size is 2.
Student: 1 Student's Spouse: 1 Student's Children and Other Dependents: 0

Enter the number of children or other dependents who live with the student and will receive more than half of their support from the student between July 1, 2024, and June 30, 2025.
Do not include the student applicant.
