# COMMUNITY-ENGAGED Learning Course Design Workshops

*Are you planning to teach a community-engaged learning (CEL) course in the next few years?*

*Do you currently teach a service-learning (SL) course that you could easily revise for the CEL designation?*

*Do you have an idea for a new CEL course and need support figuring out the details?*

We invite you to participate in an interactive workshop to help you revise or design courses to meet the new Community-Engaged Learning (CEL) designation. All workshops will introduce the new CEL dimensions and learning outcomes, and participants will walk away with a template of specific elements to integrate into their courses.
