

WEEKLY UPDATE – Nov. 15

## International Education Week

Welcome to **International Education Week (IEW) 2021**! The theme of IEW 2021 is working together and our activities highlight our collaborative efforts that bridge cultures and differences to make us better global citizens. We have created a **media board** that will allow students, faculty, and staff to engage remotely and register for events! This week, and every week, we aim to promote a global perspective and highlight the diversity that strengthens our community. Note that at in-person events students, faculty, and staff are welcome to drop-in! See list of events below and on the **IEW website**.

Attendees will consider, "how can faith promote a healthier relationship with nature? How does this relate to other issues we face as a global community striving for justice?"
