Campus Recognized Sorority and Fraternity Transparency Act

UNIVERSITY OF SAN FRANCISCO
Student Leadership and Engagement

Greek Life at USF

The University of San Francisco's Greek community plays a role in enriching student life by providing opportunities for students to build connections, participate in community service, organize fundraising initiatives for impactful causes, and host a variety of academic and social events. As registered student organizations, they also have responsibilities to uphold university expectations and maintain their commitment to academic excellence, leadership, service, and social engagement.

Throughout the year, our organizations engage in community service, organize fundraising initiatives for impactful causes, and host a variety of academic and social events. These experiences foster leadership skills, deepen a sense of belonging, and cultivate lifelong friendships. By actively contributing to both the campus environment and the greater San Francisco community, Greek Life at USF continues to shape well-rounded student leaders dedicated to making a difference.

Campus Recognized Sorority and Fraternity Transparency Act

The Campus-Recognized Sorority and Fraternity Transparency Act (Sections 66310-66312 of California Education Code) requires each institution of higher education to include in the institution's requirements for campus recognition of a campus-recognized sorority or fraternity, as defined, a requirement that the sorority or fraternity submit to the institution on or before July 1, 2023, and annually thereafter, specified information concerning the sorority's or fraternity's members and their conduct.

USF Campus Resources

Counseling and Psychological Services (CAPS)

Brief Therapy, Single Session Therapy: CAPS offers brief individual therapy and couples therapy through confidential video or phone and in-person to help address your personal and mental health concerns. They also offer single session therapy to get focused help about a specific issue. There's a maximum of 12 individual or couples therapy appointments per academic year, which includes up to 2 single session therapy appointments per semester.

Consultations: CAPS provides consultations to USF students about services and resources, regardless of enrollment or location, via video or phone. They also consult with anyone who has concerns about a USF student's mental health and needs advice or resources.

Crisis Services & All Hours Line: Students experiencing a mental health crisis will be seen the same day during business hours for crisis stabilization and to be connected with needed resources. During business hours, USF students in crisis or those referring them to CAPS should call (415) 422-6352 to schedule. After hours, students in crisis or needing other immediate mental health support or anyone concerned about the mental health of a USF student can call the CAPS All Hours line at (855) 531-0761. For mental health emergencies involving potential immediate harm to self or others, call USF Public Safety at (414) 422-2911 if on campus, or call 911 if not on campus and ask for a Crisis Intervention Trained (CIT) officer.

Groups & Workshops: CAPS offers a variety of therapy groups in fall and spring, most of which meet weekly, for currently enrolled students living in California. They also offer various workshops and workshop series, open to all USF students, regardless of location.

Mental Health Referrals: If you need services that CAPS cannot provide, including off-campus mental health services in the Bay Area or elsewhere, CAPS or the Dean of Students Office can provide resources and advice about the process of finding these services.

Outreach & Education: CAPS partners with other departments and organizations at USF to provide information about our services and education about various wellness and mental health topics.

For more information on the various mental health resources CAPS offers please visit [their website](#).

USF Campus Resources

Dean of Students

While Counseling and Psychological Services (CAPS) offers brief, individual, and group therapy to USF students, there are situations in which a student's needs will be best met by mental health services in the community. These include (but are not limited to):

- Students who would benefit from long-term therapy
- Students seeking regular, weekly counseling appointments
- Students seeking psychiatric care and medication management (USF does not have a psychiatrist on staff)
- Students who require the care of a specialist (eating disorders, complex trauma, substance abuse, and psychosis)
- Students seeking an evaluation

The Office of the Dean of Students, through Case Management, is available to support students who are seeking off campus services.

For more information on Case Management please visit [their website](#).
