Animals & Justice Seminar

**Professor:**

Matthew Liebman

**Course Materials:**

Please see the [Book List](#), published on the Registrar’s page.

**First Assignment:**

The syllabus and the reading assignments for the first class will be posted on Canvas at least two weeks before we meet.

- There is a fair amount of reading, so please plan accordingly.
- Please also start to give some thought to your paper topic, which may be on any topic related to animals and the law.

**Additional Notes:**

Some of the reading for this course is philosophical and theoretical; if you don't have experience with these kinds of texts, they may be a bit difficult, but do your best as we work through some very challenging concepts.
