LOOKING TO GET RESEARCH EXPERIENCE?

THE UCSF SLEEP & SOCIAL EXPERIENCES STUDY IS LOOKING FOR RESEARCH ASSISTANTS!

GAIN EXPERIENCE RELATED TO SLEEP, SOCIAL PSYCHOLOGY, PSYCHOPHYSIOLOGY & NEUROENDOCRINOLOGY

Research assistants learn how to:

- Conduct research studies
- Collect physiological data
- Edit and score autonomic data

Due to the nature of sleep studies, RA shifts will typically be late in the evening or early in the morning. RAs are expected to work at least 10 hours/week.
