

## Key FOB Tutorial

1. Before you get into your vehicle make sure you have your key FOB on hand
2. The beeper that will require your FOB looks like this and should be on the left side of your steering wheel:

3. Once you turn on the vehicle and get ready to drive a beeping sound will go off until you put the FOB on the beeper, doing that should look like this:

4. Once you have done that the beeping will end and you are able to drive. Drive safe!
