

## Core Learning Outcomes Draft

- 1. Intercultural Communication and Collaborative Engagement:** Guided by the Jesuit values of diversity and caring for the whole person (*cura personalis*), students will demonstrate effective written and oral communication and interpersonal skills by actively engaging in collaborative processes with diverse groups, employing intercultural communication strategies to respect and understand varying cultural perspectives.
- 2. Scientific Reasoning, Information Literacy, and Data-Driven Problem Solving:** Guided by the Jesuit commitment to rigorous inquiry and discernment in the pursuit of truth, students will apply scientific, mathematical, and/or computational principles alongside digital, information, and data literacy to analyze problems, make informed, data-driven decisions, and drive innovation.
- 3. Historical and Cultural Inquiry:** Guided by the Jesuit values of critical reflection and the pursuit of justice, students will demonstrate how key historical developments shape societies, while applying historical knowledge in both past and present contexts.
- 4. Global and Local Citizenship:** Guided by the Jesuit commitment to engaged citizenship and stewardship (*cura apostolica*), students will engage in community initiatives and internships that reflect their commitment to social responsibility, ethical action, equity, and the common good, applying these principles in both global and local contexts.
- 5. Creative Expression and Innovation:** Guided by the Jesuit values of creativity, courageous self-reflection, and innovation (*magis*), students will create products or performances in a chosen medium, reflecting on or offering solutions to the challenges of a rapidly changing world.
