

COVID-19 Shared Living Agreement

This is an official roommate agreement between all parties named in **SECTION A** which outlines the responsibilities and expectations for the residents of _____.
While this agreement isn't legally binding, it's important that all parties involved follow its guidelines to maintain the health and safety of us all.

We get through this together.

PERSONAL HEALTH & SAFETY GUIDELINES

To maintain the health and safety of all roommates during this time we agree to the following:

- Wash hands frequently, especially after coming home from outside, for at least 20 seconds
- Wear a mask every time you leave the apartment
- Maintain 6ft of distance from anyone when outside of the apartment
- Keep trips outside to essential trips only (groceries, medical, socially distant physical activity)
- Keep our laundry separate

CLEAN & DISINFECT

The following will be completed daily by each roommate as surfaces/items listed below are used.

Kitchen

Disinfect all counters and tabletops where we prep food, cook, and eat, handles to the fridge, drawers, cabinets, microwave, and faucet, as well as, oven buttons, knobs and kitchen appliances.

Bathroom

Disinfect all surfaces, including the sink, cabinets, toilet, handles, knobs, bathtub/shower.

Common Area

Disinfect all light switches, TV remotes, and game console controllers.

Electronics

Disinfect cell phones, tablets, touch screens, remote controls, and keyboards.

GUESTS

Humans are social animals, and reducing connectivity in social networks is hard. However, every additional connection that we can postpone until COVID-19 is under control has the potential to save one or more lives. Yes, every one. Regardless of who it is—waiting a bit to hang out with your friends again is worth it! However, if guests are agreed upon by *all* roommates then permission should be obtained with as much advance notice as possible. ALL guests must adhere to our personal health and safety guidelines.

*Stay home. Stay safe.
Save lives.*

IF ONE OF US IS EXPERIENCING SYMPTOMS OF OR DIAGNOSED WITH COVID-19

To maintain the health and safety of all roommates during this time we agree to the following:

- If experiencing symptoms of COVID-19 communicate with roommates immediately and self-isolate in own bedroom for two weeks
- When using the bathroom roommates will disinfect after every use
- Healthy roommates will prepare and deliver meals to sick roommates outside bedroom door
- No guests will be allowed during this time

AGREEMENT IN EFFECT FROM _____ TO _____
