Synching Faculty/Staff DonsApps Google Calendar in IOS 7 for iPhone and iPod Touch

Getting Started
To sync with your device, follow these steps:
Open the Settings application on your device's home screen.
1. Open Mail, Contacts, Calendars.

2. Select Add Account...
3. Select Other.
4. Select Add CalDAV Account.

5. Enter your account information:
   In the Server field, enter www.google.com
   In the Username field, enter your full USFconnect email address.
   In the Password field, enter your USFconnect password.
   In the Description field, enter the name you'd like to appear on the account.
6. Select Next at the top of your screen.
7. After you've completed setup, open the Calendar application and syncing will automatically begin.
By default only your primary calendar may be the only calendar synced to your device. You can sync additional created and shared calendars by visiting one of the following pages from any web browser (via the desktop, not on the mobile device):

Follow these steps to add any created or shared calendars:
1. Login to USFconnect.
2. Click on the link for Calendar From the Mail menu to access your DonsApps account.
3. Next open up a new tab or window in your web browser and enter the following address: https://www.google.com/calendar/hosted/usfca.edu/iphoneselect to access the calendar sync page.
4. Now you should see a list of calendars both created by you and shared to you. Check the boxes for the calendars you would like to sync to the iPhone.
5. Click Save to finish the process.

The selected calendars will display on your iPhone at the time of the next sync.
